

UNFPA SECOND STRUCTURED FUNDING DIALOGUE 2019

28 May 2019, 15:00-17:00

UNHQ Trusteeship Council

With the adoption of the Strategic Plan and integrated budget 2018-21, there is great momentum to boost the political and financial support of member states for predictable and sustainable financing in order to achieve the three ambitious transformative results, and to accelerate implementation of the ICPD Programme of Action and the 2030 Agenda for Sustainable Development.

In line with the QCPR 2017 (A/RES/71/243), ongoing reform proposals for the UN Development System, and Executive Board decisions, UNFPA has enhanced dialogues with member states on how to fund the development results agreed in the Strategic Plan. The goal of the structured funding dialogues is to arrive at a more diverse coalition of donors, as well as predictable and commensurate financing for the realization of universal access to sexual and reproductive health and rights for the next three cycles of the strategic plan towards 2030.

The structured funding dialogues¹ provide a unique platform for member states to gain greater understanding of the funding situation of UNFPA at various points in the year, to exchange on ways to better link results to resources, and to discuss progress of the instruments central to UNFPA funding architecture within the broader framework of the SG Funding Dialogue and Compact.

AGENDA

1. Mid-Year Update

- Recap on SFD
- Financial Updates
- SG Funding Compact

Q&As

2. Roadmap to improve presentation of results and resources

- UNFPA Costing Initiative
- Transparency, Visibility and Results

Q&As

3. UNFPA Individual Giving Programme (2018-2021)

Q&As

¹ All documents and materials on UNFPA structured funding dialogues are available on a dedicated webpage accessible at: <https://www.unfpa.org/structured-funding-dialogues>
